The Drinkable Alternative

Aqua 4% CBD is the ultimate CBD experience with an unparalleled rate of absorption by your body.
Aqua 4% CBD is the first and only drinkable CBD solution

USAGE

How should I use Aqua 4% CBD?

You can mix Aqua 4% CBD with everything that is water-based. We recommend drinking Aqua 4% CBD with water or tea, or to administer a dose directly into your mouth.

Why is Aqua 4% CBD better?

Traditional CBD products are fats or oils that the human liver tries to break down as soon as possible. This way, no more than 6 to 12% is absorbed by the body. Aqua 4% CBD ensures that all active ingredients are fully (thus 100%) absorbed by the body.

How much Aqua 4% CBD should I use?

We recommend a single pump as maintenance dosage once a day or to boost general health and well-being. Whenever you suspect that your body could do with an extra dose you can test whether there is any improvement with two or even three pumps per day.

BENEFITS

Drinkable

Aqua 4% CBD has been designed to make the active ingredients soluble in water. This makes it highly suitable to mix with tea or water.

Pleasant taste

The terpenes, curcumin and plant-based glycerine in combination with the purest cannabis extract of The CBD House give Aqua 4% CBD a unique and pleasant flavour.

Faster and stronger effect

Since Aqua 4% CBD is perfectly soluble in water, all ingredients are quickly absorbed by your body for 100% the effect.

Less Expensive

A bottle of Aqua 4% CBD will last you longer than usual because Aqua 4% CBD is more effective than traditional CBD Products.

Inhalable

Aqua 4% CBD is soluble in water and thus makes it highly suitable for use in a nebulizer or inhaler. This way the active ingredients can be inhaled in a healthy and responsible way.

Stimulates well-being

Aqua 4% CBD gives a boost to the brain through the addition of curcumin. The terpenes provide for stimulation of body and senses.

Active ingredients

Aqua 4% CBD contains CBD, CBG and CBC, a high dosage of curcumin and the same ratio of terpenes as the original hemp. The carefully chosen ingredients and the relationship they share ensures that they enhance each other, giving you the best entourage effect!

Aqua 4% CBD is a dietary supplement and is intended to support general wellbeing and is not intended to treat, diagnose, mitigate, prevent, or cure any condition. Consult your healthcare professional if you use medication or when conditions persist.

Just as nature intended

The CBD House quality products that contain \pm 10% & 5% CBD

USAGE

How much CBD Oil should I use?

Many people start off with a dose of 2 drops of oil under the tongue taken 3 times daily. Based on the effect, after a few days to weeks you will be able to feel whether you require a higher or lower dose. Make sure you do whatever you feel comfortable with.

How should I use CBD Oil?

Place one or more drops under the tongue and keep this in your mouth for a minute before swallowing.

BENEFITS

100% Vegetable based

Our CBD Oil consists exclusively of organic ingredients. The trusted CBD extract from The CBD House mixed with olive oil. Naturally without additives.

Original and pure

The CBD House has a unique recipe: that is close in keeping with the natural properties of the plant. It is Cultivated and harvested in a natural and distinctive way to ensure the active substance are optimally present in our CBD oil.

Pleasant taste

Our customer praise this CBD oil for its sweet and rich taste.

Well dosed

Our CBD oil is sufficiently fluid at room temperature and is immediately ready for use after thorough shaking. Heating the oil is not necessary and the pipette makes it nicely dosable.

CBD Oil is a dietary supplement and is intended to support general wellbeing and is not intended to treat, diagnose, mitigate, prevent, or cure any condition. Consult your healthcare professional if you use medication or when conditions persist.
